

Present: Glass, Bulgren, Elsbernd, Schneiter, Schmitt
Absent: None.
Ron Franzen attended the meeting.

Mayor Herold called the meeting to order at 7:30 pm.

John Hjelle, engineer from Erdman Engineering, presented an engineering study on the condition of the City's wells to the Mayor and Council. Hjelle explained the study provided information on the two city wells. It also suggested options to consider if improvements were to be made to the City's water system. Hjelle noted those options included rehabilitating the well by the fire station or drilling a new well. A discussion followed with many concerns raised regarding: financing a new well, location of a new well, does the City need two wells, can the existing wells be drilled deeper, would the renovation of the current backup well be cost effective. The Mayor and Council will re-evaluate the information provided before making any decisions.

The Mayor and Council discussed specifications for selling the City's 1996 Chevy pickup.

Schneiter made a motion to adjourn, seconded by Glass, carried. Meeting adjourned at 9:10 p.m.

Attest: _____
City Clerk

Mayor
